## Independent auditor's report on review of financial information

### To the Board of Directors of Generali Life Assurance (Thailand) Public Company Limited

I have reviewed the accompanying statement of financial position of Generali Life Assurance (Thailand) Public Company Limited as at 30 June 2026; the statements of comprehensive income for the three-month and six-month period ended 30 June 2026; changes in equity and cash flows for the six-month period ended 30 June 2026; and the condensed notes ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

#### *Scope of Review*

I conducted my review in accordance with the Thai Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

#### *Conclusion*

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting".

## **2 Basis of preparation of the financial statements**

### **(a) Basis of preparation**

The condensed interim financial statements are prepared in the same format as the annual financial statements together with notes to the interim financial statements on a condensed basis (“interim financial statements”) in accordance with Thai Accounting Standard (TAS) No. 34 Interim Financial Reporting, guidelines promulgated by the Federation of Accounting Professions. In addition, the interim financial statements are prepared in accordance with the Notification of the Office of Insurance Commission regarding “Rules, Procedures, Conditions and Timing for the Preparation and Submission of the Financial Statements of Life Insurance Companies” B.E. 2566, dated 8 February 2023.

The adoption of the new accounting standard TFRS 17 has prompted a review of the corporate income tax regulation related to the insurance business. The insurance industry is awaiting an update of relevant tax regulations in order to assess the financial impact of such changes. The Company is closely monitoring the development and potential impact. As at 30 June 2026, the Company calculates income tax for insurance contract liabilities according to tax regulation enacted at that time and accordingly the Company has unused tax losses brought forward no longer than five fiscal years totaling Baht 168 million (31 December 2025: Baht 1,949 million), on which deferred tax assets have not been recognised as the Company believes there will be uncertainty regarding future taxable profits being sufficient to allow the utilisation of the unused tax losses. Upon adoption of TFRS17, there is no change in deferred tax assets or liabilities on insurance related items and deferred tax assets on unused tax losses brought forward.

**15 Fair value measurement**

***Fair value hierarchy***

Analyses recurring fair value measurements for financial assets and financial liabilities. These fair value measurements are categorised into different levels in the fair value hierarchy based on the inputs to valuation techniques used. The different levels are defined as follows.

- *Level 1*: quoted prices in active markets for identical assets or liabilities.
- *Level 2*: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly.
- *Level 3*: input for the asset or liabilities that are based on unobservable input.

***The following methods and assumptions were used by the Company in estimating fair value of financial assets and financial liabilities as disclosed herein.***

The Company determines Level 2 fair values for debt securities using clean price on the last day of the period provided by the Thai Bond Market Association.

The Company determines Level 2 fair values for unit trusts using the net asset value (NAV) on the last business day of the period provided by assets management companies.

The Company determines level 3 fair value for non-listed equity using net asset value per share according to the latest available financial statement for T.I.I Company Limited's equity and NDID Company Limited's equity.
